

Joy Kits for patients

Joe DiMaggio Children's Hospital believes in the power of play to promote positive healing for our patients. This mission is only possible with the generosity of our community of donors. Joy Kits are a wonderful way to provide distraction and comfort to patients at bedside. We kindly ask that all joy kits are placed in either a gallon-sized sealable bag or a plastic shoebox with lid.

Please email JDCHdonations@mhs.net to coordinate a drop off time.
